LSI SOLUTIONS®

ADVANCE
SURGERY

IMPROVE
OUTCOMES

REDUCE
PAIN

Our approach at LSI SOLUTIONS® is that “Good Enough” is not good enough when helping a sick patient. We recognize that it is our privilege to truly enable a positive impact in a person’s life. We are dedicated to improving intra-operative and post-operative patient outcomes by advancing less invasive gynecologic surgery.

We believe surgery is now poised for an amazing Renaissance. This new era must be kinder and gentler. Surgery must focus on offering patients highly effective durable clinical outcomes with minimal pain and rapid recovery. We are proud to encourage, equip, and empower surgeons striving for optimized patient care. LSI will help lead this important advance.

Our goal is to help more patients in more places through our growing portfolio of exciting products. LSI is dedicated to supporting wonderful surgeons and their teams across the world with innovative technology, techniques and training. We are grateful to provide meaningful value to society, and most importantly, to patients.

Jude S. Sauer, MD
Founder, President and CEO
