LSI COR-KNOT
DEVICE

CONTROL

- Exquisite remote suture tensioning
- Unsurpassed visibility of prosthetic-tissue interface
- One device simultaneously fastens and trims suture

SPEED

- Faster and easier than hand-tying
- Place fastener and precisely trim suture in seconds
- May reduce OR time, including CPB and XCT duration

SECURITY

- Low-profile, always strong mechanical fastener
- Unparalleled automated reliability
- Excellent hemodynamic and clinical results
