

# COR-KNOT<sup>®</sup>

## INSTANT SECURITY

### **CONTROL**

- Exquisite remote suture tensioning
- Unsurpassed visibility of prosthetic-tissue interface
- One device simultaneously knots and trims suture

### **SPEED**

- Faster and easier than hand-tying
- Place knot and precisely trim suture in seconds
- Substantially reduce cardiopulmonary bypass time

### **SECURITY**

- Low-profile, always strong mechanical knot
- Unparalleled automated reliability
- Excellent hemodynamic and clinical results
